How to Use

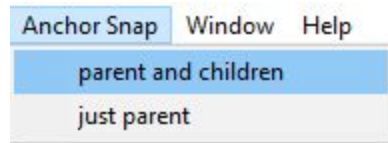

Anchor snap makes it easy to snap anchors to their corners.

You can either snap the objects parent and children or just the parent.

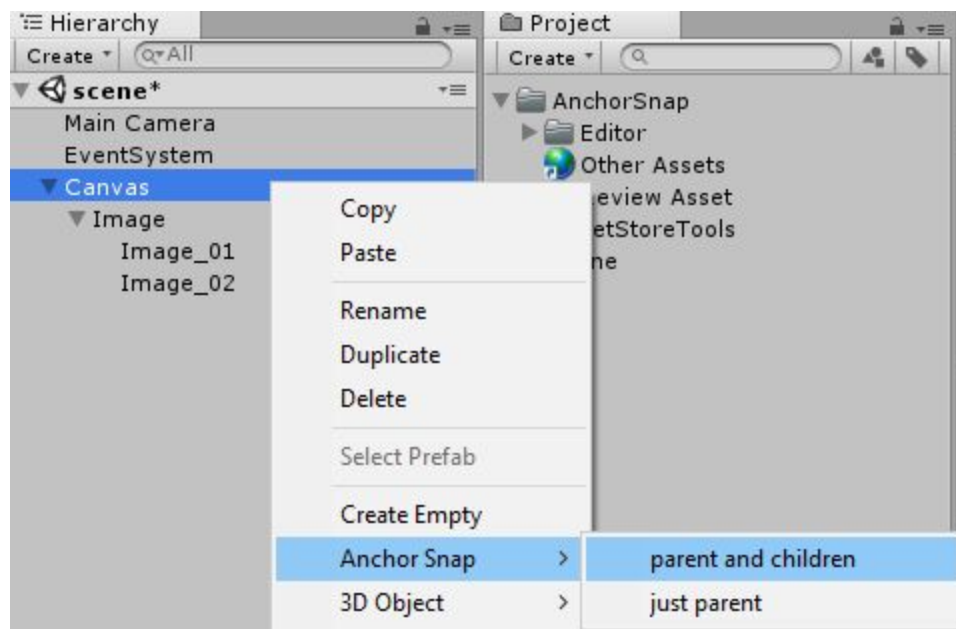

Anchor Snap Locations

You can locate the anchor snap locations in two different places.

1st menu location is at the top.

2nd menu location can be found by right clicking a gameobject in the hierarchy.

Hot Keys

Anchor snap also offers hotkeys.

You can use "ctrl [" for parent and children and "ctrl]" for just parent.
